

SEND Implementation Forum - Archived Content

This page provides means to access legacy content from the forum.

[< Back to Forum](#)

Please check [SEND Implementation FAQ](#) before sifting through old posts:

- A regular practice of the SEND Implementation User Group is to reflect questions as they are answered into the FAQ, if relevant; this was done for all past posts.
- The FAQ is periodically refreshed for current day's standards as well (e.g., original answer may no longer be true due to supersedence of newer versions)

If you have a new question, or simply wish to ask something that was asked a long time ago, please visit the live [SEND Implementation Forum](#).

Legacy PhUSE Wiki Forum (<2021)

Follow this link to access the legacy forum:

[Legacy Disqus Forum \(DEPRECATED\)](#)

Please note that while it is still possible to post there, it is not monitored, so your question will not be answered.
