

Useful Information

Best Practices for Writing White Papers	The PHUSE Working Groups Leadership Operations Committee have published a document on best practices for writing White Papers. Please look to adhere to these recommendations when drafting a paper for your project. This will hopefully ensure you get the right feedback when calling for public comment.
Chart er	Operating guidelines for Working Groups Members.
Code of Conduct	Guidelines for business on behalf of PHUSE.
GitHub	The PHUSE Script Repository is hosted on GitHub.com and much documentation exists on the full spectrum of GitHub functionality. As a short-cut to getting started, viewing, downloading, and uploading scrips, take a look at this User Guide.
New Project Requests(Word) New Project Requests (Online)	Do you have an idea for a project? Are you forming a sub-team of your current project? Can you see an opportunity that would benefit Industry and where PHUSE could play a pivotal role? If the answer to these questions is yes, then we recommend you use the word document to draft your new project idea, and when you are ready, transfer to the online form and submit. Your request will be reviewed by our Industry Members from the PHUSE Steering Committee. Once approved, support will be given by the PHUSE office Working Groups team who can assist in Project set up and Management. Any questions, email workinggroups@phuse.global .
PHUSETube	Provides uploaded slide presentations with audio, recorded webinars or events. Watch and learn from PHUSE Technical videos when it suits you.
Deliverable Review Process	PHUSE Standard Operating Procedures for version control of PHUSE deliverables. Each project will produce a deliverable in some form, this flow chart and process will assist you in seeking approval for Public Review and ultimately finalisation of your deliverable.
Webinar Wednesday	To view the agenda and register for the upcoming Webinar, visit the PHUSE website.
