

SEND Implementation Wiki

New to SEND?

The [Fundamentals](#) series of pages will help you learn about SEND.

- [SEND Fundamentals](#) - Basics on SEND, such as what it is, where to find the implementation guide, and how to use it
- [CT Fundamentals](#) - Basics on Controlled Terminology, such as what it is and where to find it
- [Define Fundamentals](#) - Basics on the define.xml, such as what it is and key links and preparation information
- [Getting SEND-ready](#) - A guide for new implementers, with such information as where to start, things to consider, etc.

Implementing SEND

Below are the key pages for implementers from a day-to-day basis:

- [SEND Implementation FAQ](#) – Your first stop for implementation questions.
- [SEND Implementation News](#) – For news on relevant Guidance updates and so on.
- [SEND Implementation Forum](#) – Where to ask your implementation questions.

Links

- [FDA Study Data Standards](#) - resources page from the FDA with helpful links
- [CDISC SEND](#) - This page has links to the SEND implementation guide and Controlled Terminology

For more links, see the [SEND Implementation Resources](#) page.

Contributing

Interested in contributing? These pages give information on working with SEND

- [Usage Guidelines](#) - For usage guidelines and terms of use

This content is brought to you by the [SEND Implementation User Group](#) team.
