

# Working Groups Webinars

The Working Groups Webinars create a space for the PHUSE Projects Leads and Members to highlight and share industry topics of interest relating to their Working Groups. These webinars are free and take place virtually.

Upcoming webinars will be listed below and shared via our social platforms. If you have any questions, please contact [workinggroups@phuse.global](mailto:workinggroups@phuse.global).

To catch up on previous webinars, visit the [PHUSE archive](#).

## Upcoming Webinars and Open Forums:

| Date/Time                                                  | Working Group/Project                                                      | Title                                                                                                                    | Speakers                  |
